

ANNALISE DAWSON

ABOUT ME

I've always been drawn to work that blends creativity, connection, and purpose. My background in marketing sparked a love for storytelling, but I'd often run into limitations with the tools we used, and I knew those problems could be solved with code. Once I discovered the creative and problem-solving side of coding, I was all in.

I recently completed Dev Academy, where I gained practical full stack development skills and discovered how much I enjoy building things that make life easier. I bring integrity, empathy, and a deep sense of fairness to everything I do - whether it's collaborating on a project or baking up a storm at home.

PROFESSIONAL EXPERIENCE

Software Developer, Dev Academy
Jan 2025 - Apr 2025

- Completed an intensive full-stack bootcamp focused on real-world coding skills.
- Built full-stack apps using JavaScript, TypeScript, React, and REST APIs.
- Collaborated on team projects with Git/GitHub, practicing agile workflows and pair programming.
- Gained hands-on experience with databases, authentication (Auth0), and responsive UI design.
- Strengthened problem-solving, debugging, and communication skills in a fast-paced environment.

Marketing Executive, Flick Electric
May 2023 - Jan 2025

- Led end-to-end marketing campaigns, balancing creative ideas with strategic goals.
- Managed customer emails through Salesforce Marketing Cloud - covering design, content, segmentation, and automation.
- Wrote weekly newsletters for 30,000+ customers, turning technical updates into engaging stories.

Senior Client Success Specialist, HainesAttract
Jan 2022 - May 2023

- Handled ad requests, including copy edits, media quoting, and publishing under tight deadlines.
- Mentored new team members and provided hands-on support, showcasing leadership and empathy.
